GUARANTEE

We exercise the greatest care to keep our varieties pure and true to name. However, we can give no warranty, expressed or implied, as to description, quality, growth, productiveness or any other matter of any stock we sell. In case of error, it is mutually agreed that our total liability for untruthfulness to name shall be limited, upon satisfactory proof, to free replacement, or refund of the purchase price.

REPLACEMENT

It is the desire of the FRENCH NURSERY CO. to satisfy every customer and this has been our policy for NINETY FIVE YEARS. We guarantee our stock to reach the customer in good condition and we will replace absolutely free any stock that does not reach the customer in good condition, providing we are notified immediately upon arrival of order so that we can make claim with the transportation company.

If the customer plants his order carefully and gives it good care and still some items fail to grow, we will replace at one-half the current year's price, if the customer notifies us before August 1st, following planting.

TERMS

This price list cancels all previous prices and is subject to change without notice, and prices are subject to the stock being unsold when the order is received. All shipments will be Cash on Delivery, unless cash is paid in advance of shipment, which will save the customer the C. O. D. fees. There is an additional charge for Postage. Add 75c to an order up to \$3.00 and \$1.00 to orders from \$3.00 to \$7.50. Larger orders will be sent Express Collect or Motor Freight.

SALES TAX—Please add the 3% Ohio Sales Tax. Fruit Trees and Small Fruits are **TAX EXEMPT**.

PEACH TREES

Peach Trees are one of our main items. Our fine trees are grown on rich, sandy soil, which enables us to produce trees having a wonderful Root System, with plenty of Fibre Roots — this is so essential. For the Commercial Planter, we highly recommend the 3 to 4 ft. 7/16" caliper trees, often called the medium grade or orchard size.

FRENCH'S OWN INTRODUCTION

★ALBRU Peach — U. S. Plant No. 813

We consider Albru the best commercial variety ever introduced in Elberta season. Albru is rapidly replacing Elberta in our locality. We highly recommend ALBRU.

Albru is a sport of J. H. Hale, a large highly colored freestone, ripening in Elberta season. It doesn't have the small "Buttons" or small undeveloped peaches at harvest like J. H. Hale. It bears heavy as Elberta, ships and handles well. Many large growers consider it the best variety in Elberta season. Albru has everything the commercial planter wants — Size, Quality and Color. Albru always commands highest prices. For price of trees see previous page.
